

VPN Config – Windows 10

1. Click on the Internet Icon, then click on the link as showed

2. Next, from the left menu, select VPN

3. Click on **Add VPN Connection** from the **right side of the window**

4. Check the configuration and do the same using your own credentials
For **requesting the Pre Shared Key**, please send an **email to vpn_config@ciimar.up.pt with the subject VPN Password**, you will receive the Secret VPN password in 5-7 seconds. Please use your CIIMAR email to request this.

Adicionar uma ligação VPN

Connection Name

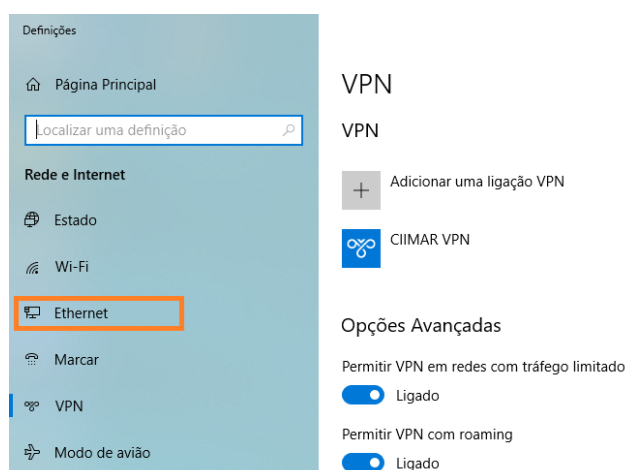

Pre Shared Key – request by mail

Type: Username and Password

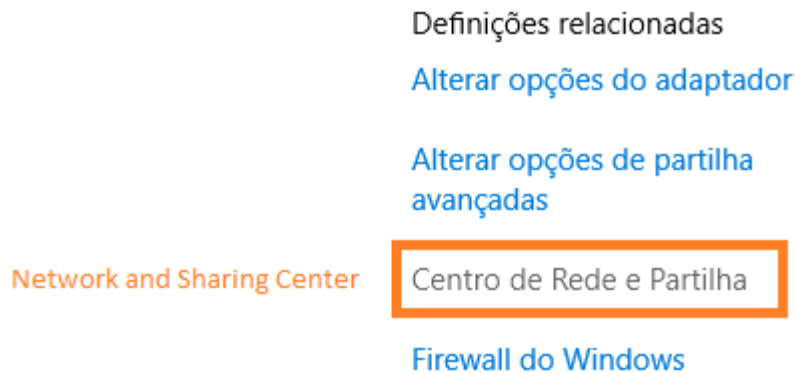

CIIMAR email address

At the end click Save

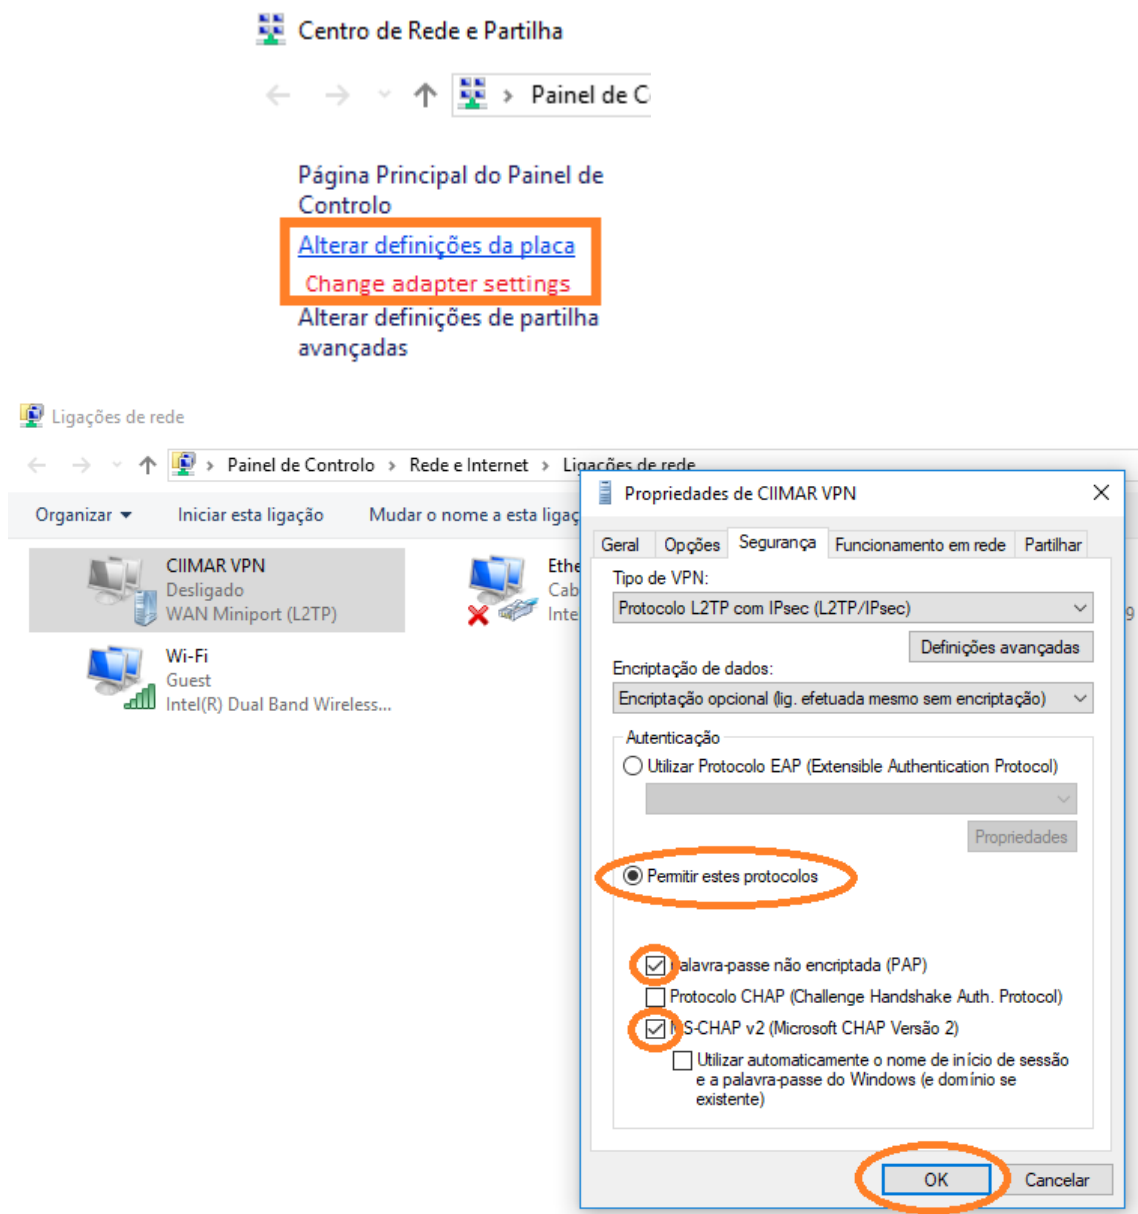

5. Now, at the other window, click on Ethernet

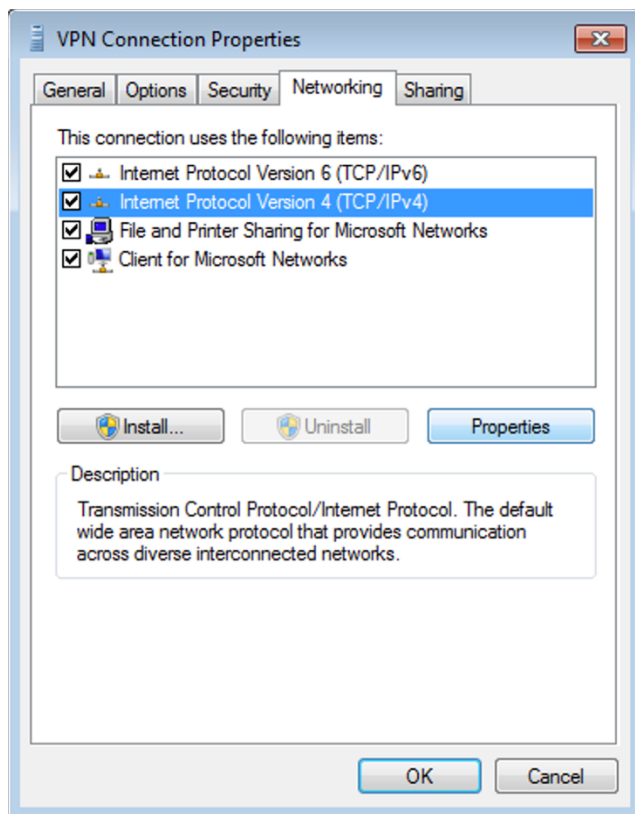

6. Next, click on Network and Sharing Center

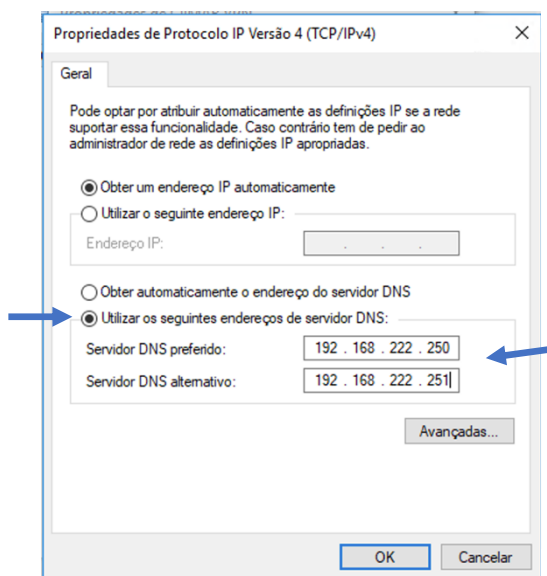

7. From the left Menu, click on Change adapter settings and at the CIIMAR VPN, select and click with right mouse key and go to Properties. Check the Security options as showed.

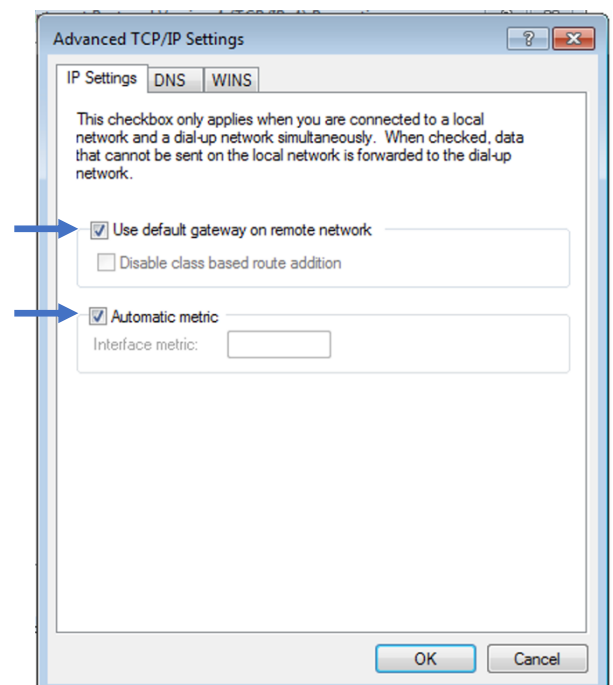

8. To finish, please click again with right mouse key on CIIMAR VPN and go to Properties, next, select the Networking tab:

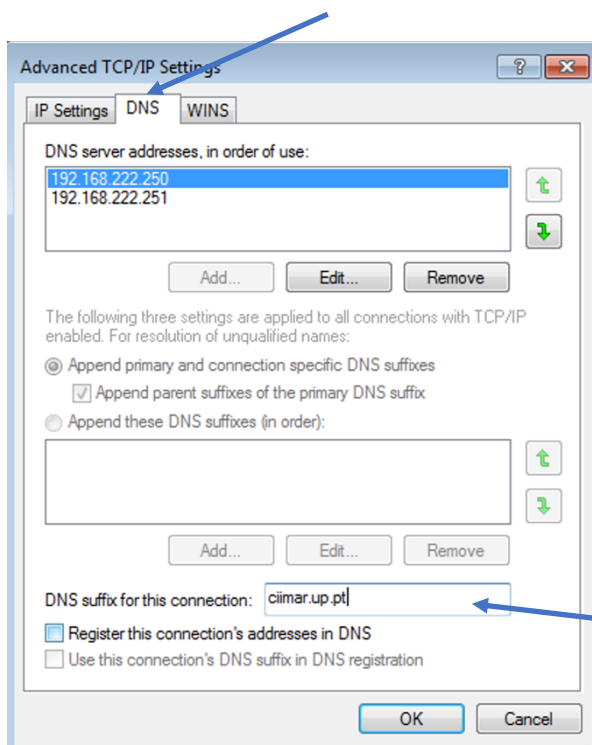

Select the Internet Protocol Version 4 and click Properties

Click on "Use the following DNS..."
Fill the same IP address as showed
Then select Advanced

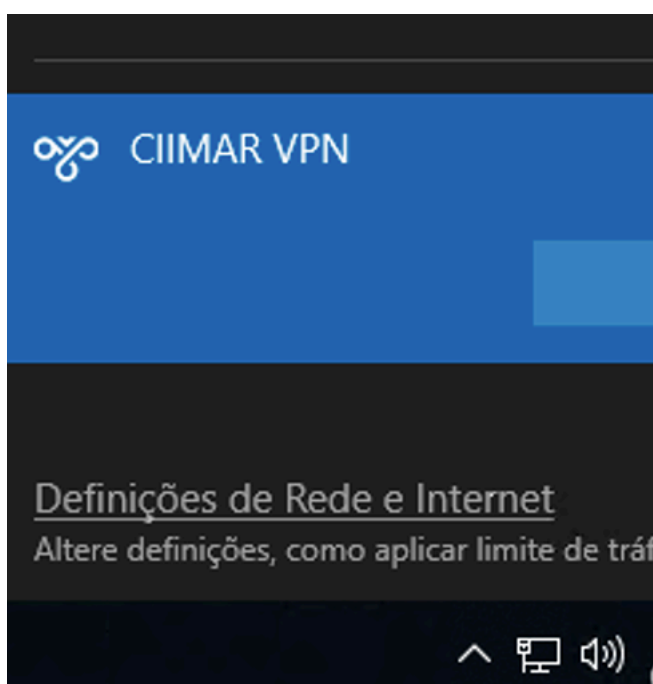

Check the config as this one,

Next, click on DNS tab and at the bottom, write at the DNS suffix “ciimar.up.pt” as showed.

After this steps, just click OK on all opened windows

Test your connection by clicking on the Internet icon and select CIIMAR VPN, then click Connect.

Thanks,
